## Sign-up and Sign-in page

- Mag lagay ng option to view the password sa sign up at sign in
- Mag lagay ng note sa create password kung ilan ang minimum character

## Home page

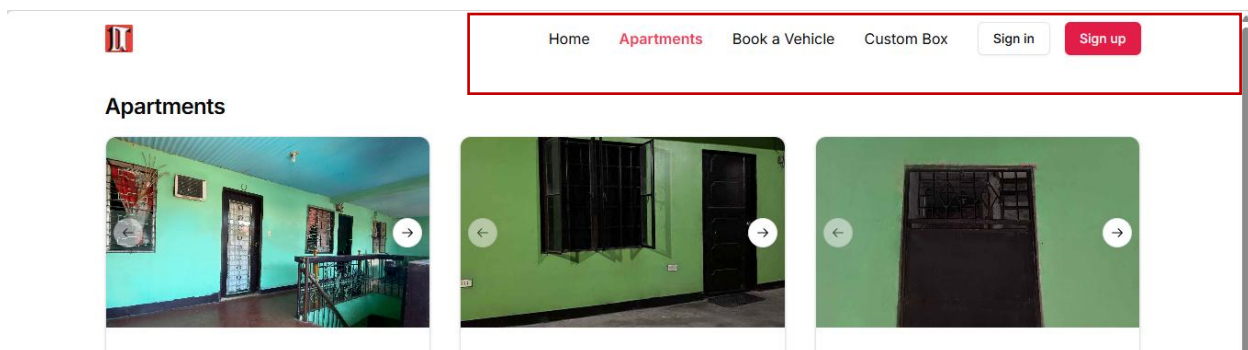

Ito po yung code para mag pantay pantay yung sentence

### Loreto Trading

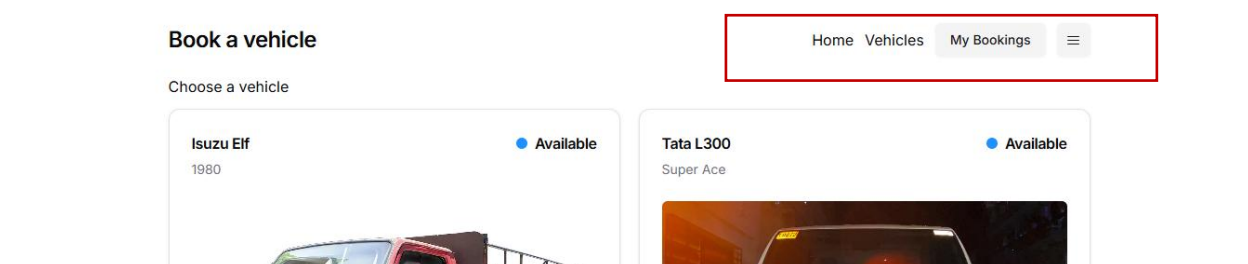

We are a company that specializes in providing packaging solutions. Our unique feature allows for the resizing of boxes and the addition of layout markings. With our services, you can customize boxes to perfectly fit your specific size requirements, complete with accurate markings for easy assembly and organization.

```
src > app > (main) > animation-components.tsx > LoretoTradingH1
3 import { motion } from 'framer-motion'
4
5 export default function LoretoTradingH1() {
6   return (
7     <motion.h1
8       // increased title size
9       className='text-[4rem] font-extrabold' // Between text-6xl (3.75rem) and text-7xl (4.5rem)
10      animate={{ opacity: 1 }}
11      initial={{ opacity: 0 }}
12    >
13      Loreto <span className='text-rose-600'>Trading</span>
14    </motion.h1>
15  )
16 }
17
```

Paki uniform din po yung sa apartment ganto kasi itsura

Dapat po parehas nento palagyan po ng home para maging uniform ang itsura

## **Custom box**

- **Pa fix po ng position ng box**
- **Pa lagyan din po ng minimum size ng box 5 inches at 50 inches yung maximum**
- **Tapos pa fix po ng bug yung image hindi sakto sa pwesto kapag nag create ng box**
- **Pa add din po ng delivery address ng box**
